

Audio Visual & Lighting Systems Integration

As a one-stop audio visual solutions provider for turn-key visual environments, Incorp Systems Pte Ltd has the in-house expertise to meet all audio visual & lighting systems integration, design and service needs. We work with architects, consultants, facility managers, IT professionals and construction management for any requirement. For each project, we establish a dedicated team that includes:

- Project Management - for continuous communication about your system's status;
- System Design — initial facility consulting, structural systems, electrical connectivity, audio and visual system design;
- Quality Control — participating in project kick-off, staging testing and final reviews;
- Audio Visual Installation & Integration — your contact for on-site questions and coordination;
- Software and User Applications — simplifying user interaction and control systems, configuring computing;
- Technical Services — for initial consultation on long term maintenance requirements and service plan options; whether one facility or for a global enterprise

Our capabilities run from single room systems up to full facility audio visual installation & lighting system integration during new construction or renovation. Our portfolio includes audio visual solutions for auditoriums, lecture halls, conference rooms, classrooms, training facilities, executive boardrooms, Galleries, etc.

Design, Development, Integration & Maintenance

A solution beyond the ordinary

As we begin to design your system, we'll meet with you and your staffs then do an engineering analysis and acoustical model—on the one hand it is to understand the physical space and on the other is to see how you and your staff see it. How you plan to use it and how you hope the system will come to serve your needs.

Whether your facility needs a basic video or sound system or the most complex combination of AV, lighting and integrated control, we can design and integrate it. Your new system will work as one system—logically put together and easy to use the way you want it to function.

Our expertise:

- Sound system design & installation
- Video system design & installation
- Video walls
- Stage lighting
- Automation and control
- Videoconference system
- Client training

Our warranty:

All Incorp Systems Pte Ltd audio visual solutions and installation carry a full year (or longer) on-site warranty.

Our engineers and installers, with literally thousands of hours of experience and education, have hundreds of audio visual installation in their resumes in some of the most impressive installations in South East Asia and we'll do the same for you —every time.

Tell us your needs and we design the solution...
