

ONfinity

ONfinity CM2 MAX- Powerful Interactive Presentations Anywhere Anytime!

The ONfinity CM2 MAX is a fully featured interactive whiteboard system that transforms any standard whiteboard, flat surface (such as a wall) or projection screen into an interactive whiteboard.

It requires NO signal receiver or device to be attached onto the projection screen surface making it fully portable between classrooms/ conference rooms. The Interactive Whiteboard System CM2 MAX can also be used with a plasma screen by using the video-output of your PC.

QOMO HiteVision Finger Touch Interactivity

QOMO QWB300 Series, 88" Interactive Whiteboards are changing the way many educators

approach their curriculum and classes. Perfect for the classroom or anywhere there is a need for interactive instruction. QOMO's engineers use advanced technology to make our QWB IR series of whiteboards some of the simplest and most powerful teaching tools available.

Teachers are free to use their fingers to write or they can use the supplied electronic pens. Not only does QOMO provide you with Flow Works software and RM Easiteach automatically with each whiteboard you purchase, customers also have the freedom of choice to bundle countless, specialized software packages with the boards. QOMO believes in meeting your curriculum content needs, whatever they may be and so has taken the initiative to partner with several software creators to give you options.
